DARYL CECILE

Software Developer

Creative web developer with 3 years' experience building front and backend systems and maintaining responsive websites. Proficient in HTML, CSS, C#, and JavaScript/Typescript, as well as modern libraries and frameworks. Passionate about maintaining high efficiency and providing great user experiences.

EXPERIENCE

ProjectFunction
06/2018 - Present

Co-Founder / Tech Lead
Create opportunities for people to learn and get into the tech industry by providing free courses to those who are under-represented in the field.
- I oversee the maintenance of both the main website and learning hub, as well as maintaining the database.
- Initiated and successfully completed the migration of both websites from PHP to NodeJS.
- Worked with industry partners and sponsors, to negotiate and form collaborations.
- Secured 2 years' worth of sponsorship and funding.

Distinction Ltd.
07/2020 - Present

Software Engineer
Distinction is a digital agency that is shifting towards becoming a strategy agency. As a software engineer at Distinction, I work mostly with NodeJS, Kentico CMS, and C# with the .NET framework.
- I contributed towards the creation and release of a major client website.
- Worked with clients to resolve issues and implement changes that lead to more efficient and stable products.
- Upskilled in Kentico CMS, Umbraco, and Pantheon CMS systems.
- Initiated and recommended process changes to simplify development and enable cost-savings.

ERT
08/2018 – 07/2019

Software Developer
I had the opportunity to work as part of the research and development team at ERT during a year-long placement where the duties included feature design and implementation.
- Contributed to the implementation and improvement of development processes
- Won best business idea award during the business-wide hackathon.
- Was given the opportunity to design, build, and launch a new feature for the in-house product.

Code First: Girls
03/2016 – 06/2016

Coding Coach
Had the opportunity to work with and provide coding assistance and mentorship to students aged 17+ with JavaScript, PHP, CSS, and HTML.

- Assisted students in acquiring skills to write efficient code, as well as providing implementation methods for their individual project ideas. In some cases, the individual has gone away to launch their start-ups, based on the ideas and guidance.

Just-Eat UK
09/2015 – 10/2015

Android Developer Intern
Worked under the mentorship of the Head of Android Development Team on the Just-Eat Android mobile application. Learned about project management, scrum, and sprints from the project manager, as well as shadowing the UI team during their proposal for the next campaign.

- Contributed to the app through development of the account section on the android app, on the very first week.

EC1 Spectrum Studios
06/2012 – 07/2012

IT Engineer
Provided IT assistance to teaching staff and students. Deployed, set-up and configured digital instruments and software. This experience has also given me the chance to improve upon my C#, Java and PHP skills. In addition to the duties above, worked as part of the publication team to release digital advertisements, film, and record public interviews.

- Launched 2 campaigns to get young people into community projects.
- Assisted the publications team to release digital advertisement.
- Conducted public interviews.
